Register TODAY-Max 20 students

This one day class will give you the EPA mandated training needed for you and your employees to become Certified Renovators and comply with this new federal law.

For more information on the new lead based paint law, go to www.epa.gov/lead/

Attention remodelers, painters, drywallers, demolition, window installers, electricians, plumbers, carpenters, rental property owners and managers and anyone else who works on pre-1978 homes, or child care facilities.

Under new EPA rules that go into effect in April 22, 2010, contractors performing renovation, repair, and painting projects that disturb lead-based paint in homes, child care facilities and schools built before 1978 must be certified and must follow specific work practices to minimize occupants' exposure to lead hazards.

All individuals performing activities that disturb painted surfaces must be certified renovators or have been trained by a certified renovator. A certified renovator must also be assigned to each renovation and perform all of the EPA-mandated responsibilities of a certified renovator.

Fines for non-compliance are anticipated to be \$32,500 per day, per jobsite.

Register online at www.lead safetraining.org

Click “Register” button, click “Culpeper, VA May7th”, and follow directions to register.

Non PVBIA members can register online. PVBIA members must please contact Shannon for registration at gearing4@aol.com or (540)825-1205.
